ORCA SUMMER SCHOOL IN CLINICAL RESEARCH
17-18 April 2015 - Athens, Greece
Research related lectures

17 April
16.30-17.30 Methodological issues in relation to performance of clinical research – Vasileios Margaritis
Oral Health Epidemiologist and Instructor at College of Health Sciences, Walden University, Minneapolis, U.S.A. He has served as a methodology and statistics expert in a variety of areas including dental caries, periodontal diseases and erosive wear. Effective September 2015, he will be the chair of Special Interest Working Group for Tooth Surface Loss/Erosion in European Association of Dental Public Health.

18 April
9.00-9.45 How to prepare a study protocol, Ethics in clinical research and Requirements for scientific papers – David Beighton
Professor Emeritus at King's College London, Visiting Professor at Leeds Dental Institute, UK and Editor in chief of Caries Research.
